ABSTRACT

Contributors of presentations at the conference are invited to submit electronically a one page abstract, **not later than October 15, 2008**. Contributed papers will be peer-reviewed. Notification of acceptance will be given on November 15, 2008. Abstracts should briefly outline the main features, results and conclusions as well as their general significance, and contain relevant references.

The abstract should be written following the format of the Latex, Tex and Word macros for submission that can be found at the conference website: <http://www.bme2009.nl> in Instructions for authors. They must be translated to Portable Document Format (PDF) before submission through the conference website.

The abstracts will be reproduced as submitted and unchanged in the Book of Abstracts of the conference. The Book of Abstracts will be available to registered participants at the start of the conference.

The abstract has to be written in English with Arial 10 size letters. The distance between two text lines should be approximately 3 mm. The number of lines of the abstract body should not exceed 35 lines.

The abstract must contain the full name and full address of author/s. In the case of joint authorships, the name of the author who will actually present the paper at the conference should be indicated with an asterisk. Papers can only be accepted on the understanding that they will be presented at the conference. A paper will only be included in the Proceedings of the conference if at least one of the authors is registered before July 15.

For any further request, please contact BME2009 Conference Secretariat
